We Welcome:

Nurses, Nurse Practitioners, Respiratory Therapists, Medical Assistants and other
healthcare professionals caring for patients with pulmonary infections and disease.

Course Description:

This program will provide current information and evidence-based guidelines that will
enhance clinical and professional practices related to the care of patients with pulmonary
disease.

Program Objectives:

- Describe the biology of cell death after radiation
- Recognize radiation toxicity of the lung
- Identify new medications used to treat pulmonary conditions
- Specify the benefits and consideration of a universal flu vaccination
- Utilize information gained from case studies

Continuing Education:

Contact hours are awarded for nursing and respiratory therapists. An application has been
made to the American Association of Medical Assistants (AAMA) and is pending. [Click
here](#) for more information.

Nursing: 3.75 contact hours awarded. MW MSD Provider Approval #: NE1019-
9. Nebraska Methodist College Professional Development is an approved provider of
continuing nursing education by the Midwest Multistate Division, an accredited approver
by the American Nurses Credentialing Center's Commission on Accreditation.
